

**"Superior
Quality
Custom
Decks"**

Logsdon Decks, Inc. is a small company whose focus is quality and service. Our members have 15+ years of superior craftsmanship experience, and our attention to detail is second-to-none. We use special CAD software to bring your deck vision to life. It is then our style to add little details that make an ordinary deck stunning.

We use pressure-treated wood and composite materials, including Trex®, EverGrain®, and Procell. Our screened porches contain screen modules that are handcrafted and sturdy, and are specifically made to be easily replaced in the event a tear occurs. We can also add in nice details such as metal balusters, planter boxes, sunbursts, skylights (such as Velux®), and embedded lighting.
